R2X is the industry's most innovative carpet stain and soil repelling system and the product of years of research and testing. Shaw's exclusive R2X system goes beyond conventional repellents that only protect the surface of the carpet. With R2X, carpets are armed with total fiber coverage, offering complete protection from the top to the bottom of the yarn. This total fiber coverage offers unprecedented protection against household spills and everyday soiling. With R2X, spills that reach the base of the yarn don't penetrate and wick back to the top as they do with conventional solutions.
